Dear Ben,

Congratulations! I am pleased to inform you that you are eligible to continue into Semester 2 of the Computer Programming program at George Brown College. This is at the request of your Academic Division.

Helping you plan for Spring 2025

At George Brown College your health and well-being are our first priorities. We deliver programs and student services on campus and in hybrid and online formats. Check back in Winter 2025 to see the updated Program Delivery List for Spring 2025: <https://www.georgebrown.ca/programs> for the exact delivery format for your program. We do not require health screenings or proof of vaccination to enter college buildings. However, students in some of our academic programs interact with vulnerable individuals. These special settings are subject to additional requirements, and proof of vaccination is a requirement. Please check your program page to see if there are any special requirements for your program: <https://www.georgebrown.ca/programfinder>

If you are continuing in a different program please disregard this invoice. Check STU-VIEW for the most current information.
